

Just good Friends

(words&music by Olaf Boles/Germany)

A real good friend, that's just the greatest
I don't know how to live without
A real good friend
Just keeps me grounded
When my head's up in the clouds

A real good friend's gonna tell you the truth
Though he knows, it's hurting you
A real good friend would never say
"I don't have any time for you!"

A real good friend keeps me going on
Through thick and thin, my head held high
If I could change a thing , I wouldn't
'Cos you're my present from the sky
A real good friend that's just the greatest!

A real good friend will save your stories
What you've been told is just for your ears
A real good friend's like a miracle mirror
He makes your sorrows disappear

With a real good friend life's a great party
You can celebrate all day
No matter where you're going
He'll accompany you on your way

A real good friend's the best security
You can get in your whole life
His loyalty and honesty
You'll hardly find in another one's eye
So let's be friends, just good friends

A real good friend will built you up
When you world is broken down
To have a friend like you's the cause
To wear my heart just like a crown

Real good friends will always be friends
No matter if they die
To live a life beside you my friend
Is a privilege, no cause to cry!

A real good friend keeps me going on
Through thick and thin, my head held high
If I could change a thing , I wouldn't
'Cos you're my present from the sky
A real good friend that's just the greatest!

Thanx 4 being my friend, Sven! ☺
